**Rand McNally : Rand McNally Schoolhouse Intermediate World Atlas** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rand McNally Schoolhouse Intermediate World Atlas:

0 of 0 people found the following review helpful. Excellent.By D. AtticksFor our homeschool curriculum. Excellent.15 of 16 people found the following review helpful. Basically useless, just a pretty bookletBy Elizabeth A TrianoWe had purchased this book for our 11-year-old son, and quickly found it insufficient. So it went to our 9-year-old. We tried to use it for fourth grade homework this week, and it has so little information it's not even funny. It wasn't helpful at all.It's a pretty book though. It would be a nice thing for a preschooler through maybe first grade, for an aspiring scholar who craved the excitement of maps and world words, but didn't really need any hard information out of it.5 of 5 people found the following review helpful. very good maps, nice formatBy Jagoda Urban-KlaehnI cannot agree with another reader who criticize this atlas. I have a comparison with many other geography books and

atlases I bought for my kid. This is really a very nice and very concise world atlas. I especially liked physical maps of all continents. They are very realistic. The photos from all regions of the world have very good quality and resolution. I had another world atlas from a different producer and in spite of bigger format it has less information and its maps are much worse. So, please do not rely just on this negative review. This book is worth to buy! I am originally from Europe and I saw many world atlases, this one is really one of the best!

For all those probing questions about the world, older students can check out the Intermediate World Atlas for more in-depth answers and information about geography. This atlas includes photos, graphs, critical thinking questions, brainteasers, and charts that reinforce map concepts, as well as detailed maps showing themes such as climate, economies, energy, and population. Features include: Reference material and maps suited for students ages 9-14 102 physical, political, and thematic maps User guide to help students get the most from their atlas Continent-by-continent organization, with an overview to introduce each continent Supplement to the Intermediate Geography Map Activities workbook or great on its own Paperback 128 pages
