From Rand McNally : Rand McNally World Wall Map before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rand McNally World Wall Map:

3 of 3 people found the following review helpful. Large, beautiful, up-to-date world map. Get this one. By Humpy the Dumpy This is a large, beautiful up to date wall map that is laminated on both sides. I had a big blank space on my wall and I love maps, especially when something happens in the world and I want to see where that place is. So, this map is attractive, well made and accurate (it has South Sudan, the newest country). It came packaged so there was no transportation damage whatsoever. I can't find any fault with it. 2 of 2 people found the following review helpful. cheap but not worth the price By Rick Difficult to read. Some country's cities names printed larger than the country name. Countries not true to size: Map printed from an equator vantage point -- northern and southern countries are pancaked. If you are interested in Greenland, for instance, you want to know what it really looks like, not the distorted view from the equator. Tossed it and bought a ne map from a different company 15 of 15 people found the following review helpful. Nice map - thin paper By Just a guy This is a very nice world map. It seems to always be out of stock, but if you order it you will usually see that it ships a week later. The only complaint is that the paper is very thin and it tends to crease as you are hanging the map.

Staying up to date with world events and constantly changing political boundaries is easy with Rand McNally's World Mural Wall Map. This world wall map changes as the world does, and frequent updates and reprints assure you that accurate information is available at your fingertips. The eye-catching wall map's combination of bold colors and detailed cartography make it a handy reference piece that's sure to stand out in any home, classroom, or office. This map looks great framed, too. Gall Stereographic projection, which shows countries and continents truer to their relative size than many other projections. Map centered on Africa allowing viewers to see continents complete and intact. Color-matching relief to show mountain ranges and other elevation changes. Clearly labeled nation and city names for easy location. Latitude and longitude indications marked in light blue.
