If you don't already own this map, it is terrific. The map gives you an overall view of the San Diego backcountry. I use it whenever summiting peaks in Anza Borrego because I can identify all of the surrounding peaks.0 of 0 people found the following review helpful. Good detail and colorBy HVEBought for my backpacking trip to Jennie Lakes Wilderness. Good detail and color. A good topo map for backpacking is always a must.0 of 0 people found the following review helpful. Great map!By Sandro MarinoA little cumbersome to open up while you're on the road, but serves its purpose and like the material. Doesn't take a lot of space and isn't heavy aside from being waterproof.

All maps have color-coded symbols and trails, mileages between trail junctions, latitude/longitude, UTM grids, contour lines, Scale 1:126720 vegetation, and elevations at trail junctions.Tom Harrison Maps is famous for the beauty and accuracy of its maps.
