222 This is a self-published book. It is not well written. It is not well designed. There are paragraphs the meaning of which entirely escapes me. The author is a real estate person, with all the usual salesmanship. The typeface is huge, maybe to add pages to look like it is bigger than it is, to justify the price. Makes me wonder who exactly wrote the glowing reviews. 0 of 0 people found the following review helpful. Great book packed with excellent tips By Ken TA well written, funny, informative book that's a must read if your thinking of buying property or building a home in Mexico. 2 of 2 people found the following review helpful. Excellent background information for a move to Mexico By Bob I found this book to have the kind of detail and the sort of perspective that has already helped my wife and I as we prepare for a Mexican retirement. The fact that the author really values personal freedom and understands that it comes with great responsibility sets the tone for the multi-faceted facts, experiences, advice and more that is offered. Can't recommend it highly enough.

SECOND EDITION 2016 SWEEPING CHANGES TO IMMIGRATION. Retire to Mexico Supercharge your Dollar Become a Middle Class Millionaire is a funny yet factual discovery of why Mexicans and Americans/Canadians are passing each other at the border in search of the American Dream and the good life.
