I love visiting museums and enjoy Rick Steve's easygoing and witty approach. Even though it cannot be used as a follow along visitors guide when visiting the museum because of changes in locations, it can be used to gain a background of these famous works. I keep it in my car and it's the perfect book to fill idle periods.0 of 0 people found the following review helpful. another great contribution from Rick StevesBy inner dragonthis is a great book--entertainng, yet provides concise informaton about what to see. The book is somewhat dated, so i don't want to rely on the opening times listed, but the internet will provide updated information. To me, the real value is a concise description of the highlights, so i can decide if the attraction is really worth my time.0 of 0 people found the following review helpful. Ricl Steven's Mona Winks: Self-Guided Tours of Eurpoe's Top Museums.By CharlesI ordered a copy of this book for my wife who read a friend's copy and asked for one. The book arrived today and it was in superb condition. The book dealer's advertisement stated that the book has no marks in it. Not only did it have no marks in it but the book only looked slightly to near perfect condition. I am most pleased with the book dealer and with my wife's copy of this book. I highly recommend this book dealer to all.

Rick Steves doesn't just list where to travel in Europe, he leads travellers through the "back door", revealing how to give every journey an extra, more authentic dimension. He shows travellers how to delve into European culture, and experience each region's natural wonders - economically and hassle-free.
