By Philip Brenner
I was glad to have an ITMB map when traveling in Slovenia and Croatia two years ago -- it had very good detail, even small village roads. But the ITMB Rio map was a waste of money. It was no better than any of several free maps available in Rio hotels. Spend your money instead on the Lonely Planet's Rio city book, which has better maps and very useful information.

By F. P. Protopappas
There is a street in the Leblon area of Rio, Rua Sambaiba, which is misspelled both on the map and in the street index, as "Rua SambaiDa" I have been on this street and will be living there soon. Also, coverage could be a bit broader, although technically all of Rio is shown. Barra would have been nice... Otherwise, the map is very nice, with very clear street names and a useful index.

By John Roberts
I tried to buy a map of Sao Paulo and Rio at Indigo and Chapters and they did not have them and their computers said both maps were UNAVAILABLE. I then tried Borders and they were allied with and after a few clicks on my computer these maps were on their way to me in the mail. I received them in less than a week and when I opened the package and looked at the maps I discovered they were published in VANCOUVER, CANADA. These maps were not available at Chapters or Indigo the two all-Canadian government-protected, tariff-protected guardian of Canadian values even though they were both PRINTED IN CANADA! What a useless pair of book-stores!!!!!!!!!!!!!!!!!!!!!! The only way I would ever shop at either of these stores again would be if I lost my mind and lost my way. Thank goodness for our American neighbours. Why doesn't Borders have stores in Canada? Kindest, John Roberts
