Amazing photography of a magical cityBy CrazyI nearly purchased this whilst in Rio, but then did a quick search for it..only to find that it was much more affordable online. It also meant that I didn't need to haul such a heavy book home. This is beautiful coffee table material. Rio is truly one of the most magical cities in the world--it's lovely having it captured like this in a beautiful hard bound book.0 of 0 people found the following review helpful. Five StarsBy Gregory ColvinMy friend in Rio loved this present.1 of 1 people found the following review helpful. Rio de Janeiro/Hans DonnerBy Victoria NewtonI lived in Rio in the 60's and have great memories of my years there. I lived on Copacabana beach and went to school in Leblon and spent most of my afternoon and weekends on Ipanema beach. This book's beautiful photography and interesting text were everything that I hoped they would be in that they capture the very best of Rio, the places as well as the events that make Rio de Janeiro the wonderful and magical city that it was then and seems to still be today. I would recommend this book to anyone, whether or not they have ever been there. If they have not, maybe they will be inspired to take a vacation there someday.

Book about a famous South American City.
