biking enthusiast wanting to have a handy reference to cover all that Georgia has to offer. From the mountains of North Georgia, the many coastal excursions to the numerous Civil War sites and not to forget the cycling events such as Tour De Georgia and the Bike Ride Across Georgia. You will definitely need this as a reference to the many trail descriptions and maps with information to make your trip more care free. It is all laid out for you to enjoy the trip. This author covers it all with very clean maps and detailed information. I carried on my last weekend biking trip as a reference and it proved to be a great addition to my enjoyment of the trip! A must have!! 2 of 2 people found the following review helpful. why not include elevation profiles? By Steven GI had borrowed "Road Bike North Georgia" (Jim Parham) from the library and greatly appreciated the elevation profiles in that guide. Road Biking Georgia lacks elevation profiles. In fact, elevation-change info is quite limited in this book. Aside from directions, elevation is a big consideration for me. Otherwise, RBG is well written. 0 of 0 people found the following review helpful. Four Stars By Sandra Slater good info

ROAD BIKING GEORGIA: A Guide to the Greatest Bicycle Rides in Georgia John Trussel
The first book of its kind, for cyclists of all skill levels There is no other guide to bicycling the expanse of the Peach State, home turf to award-winning journalist and cyclist John Trussel. Whether riders want to keep in shape or explore what lies over the next hill, the 40 routes and maps provided here give detailed directions and mileage for all travelers. Carefully researched, the rides offer a variety of terrain, conditions, and historical significance. The book is divided into three sections North and the Mountains, Piedmont, and South Georgia/Coastline and each route uses less-traveled secondary roads as much as possible and begins and ends in the same location. Some routes are well known, such as Six Gaps near Dahlonega, and some cruise through delightful beach areas, remote quail plantations, and even downtown Savannah. A unique, comprehensive guide on one of the most beautiful states for touring by bicycle. John Trussell is a law enforcement officer, journalist, and member of the Central Georgia Cyclists Club. He lives in Warner Robins, Georgia, in Houston County, and has ridden to every corner of the state.
