Not known by me until read here.1 of 1 people found the following review helpful. Roads to Ride is one of the finest tomes every craftedBy Carl G.Excuse the title of my review, but I wrote the book, and I like lots of stars. The book stands up after all these years of being out of print, because the topography of the roads (and the land over which they roll) is largely unchanged.0 of 0 people found the following review helpful. Easy to navigate!By C. SadlerWonderful book - I use it for motorcycle rides - it's great - with lots of good routes and information regarding topology.
