The book is pretty good with respect to descriptions of approach, maps, picture, etc. However, many additional routes have since been bolted in this area since publication. If you're going out there, check with the locals for more updated information, or look on Mountain Project's web site.0 of 0 people found the following review helpful. mountainproject. We found this book next to useless on our trip.0 of 0 people found the following review helpful.
good overviewBy justinWent to the grand canyon area. should have drove an hour south for paradise forks. Grand
Canyon- loose, bolted poorly.This book was good though.
