Christopher Hibbert : Rome: The Biography of a City before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rome: The Biography of a City:

3 of 3 people found the following review helpful. Useful overview By S. V. Nicassio Hibbert offers one of the few overall studies on Rome, from the Tarquins to the modern era. The book is necessarily rather shallow, and makes no pretense to original scholarship. But it is informative, easy to read, and visually attractive -- its primary virtue is the breadth of its treatment. I use it as a text in my "History of the City of Rome" course (university level), along with monographs on specific periods. I would certainly recommend it as an introduction to a city where the multiple layers of History are still tangible. 0 of 0 people found the following review helpful. Five Stars By Kindle Customer Nice book 0 of 0 people found the following review helpful. This is a book about Rome, the whole thing By AncientGuy This book is best savored slowly, so you can let the information sink in. History books like this tend to be pretty dry, but it does have lots of interesting information in it. I bought it because I wanted to know more about Rome that isn't

"classics", like the Roman empire. Probably a third of the book is still Roman republic/empire stuff, but then you get to find out what other Romans did when the empire went out the backside of the divine turtle we live on. Rock on, Romans. Eat that spaghetti.

This beautifully written, informative study is a portrait, a history and a superb guide book, capturing fully the seductive beauty and the many layered past of the Eternal City. It covers 3,000 years of history from the city's quasi-mythical origins, through the Etruscan kings, the opulent glory of classical Rome, the decadence and decay of the Middle Ages and the beauty and corruption of the Renaissance, to its time at the heart of Mussolini's fascist Italy. Exploring the city's streets and buildings, peopled with popes, gladiators, emperors, noblemen and peasants, this volume details the turbulent and dramatic history of Rome in all its depravity and grandeur.
