0 of 0 people found the following review helpful. Not badBy James in the ATXGood advice for people who have

never RV'd and plan on going full time. Has a lot of good information. Can't say I learned anything but we've been RVing for quite some time. 1 of 1 people found the following review helpful. Hastily written and lacks details. By Kindle Customer I am unimpressed. The book appears to be hastily written and lacks details. Sorry to say this, but it looks to me somebody just wrote this to make some money rather than to provide value through information. 0 of 0 people found the following review helpful. Very weak. By Mr Scrutiny Very weak on content and poorly edited, which left a bad impression. It was almost as if the author did his best to show how lousy the lifestyle is. A real downer.
