Jane Eppinga : Saguaro National Park (Images of America) before purchasing it in order to gage whether or not it would be worth my time, and all praised Saguaro National Park (Images of America):

The Organic Act of 1916 created the National Park Service to conserve the scenery and the natural and historic objects and wildlife therein, and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations. Each national park or monument offers a glimpse into the

natural beauty and history of the United States. These parks have a variety of natural resources covering large areas and are protected by the American Antiquities Act of 1906. Saguaro National Park is home to its namesake giant saguaro cacti, barrel cacti, cholla cacti, and prickly pears, as well as quail, spotted owls, javelinas, and a host of other flora and fauna. Saguaro National Monument was created by outgoing president Herbert Hoover in 1933. On October 14, 1994, Pres. William Jefferson Clinton signed legislation enlarging Saguaro's boundaries and making Saguaro National Park America's 52nd national park.

About the Author Jane Eppingas articles and books have won several literary awards. In July 2008, she presented a paper at the International Women's Congress in Madrid. She is a member of Western Writers of America, Arizona Press Women, the National Federation of Press Women, and the Society of Woman Geographers.
