This is not much of a river runner map but it sure is nice to have all the area detail in one place. IE if you had to walk out from the river, this map could save your life. Lot's of Salt river running maps out there on the Internet and river runners should search for and get them. As a planning tool and area guide if you need to walk out of the river canyon, this map is a must have. 0 of 0 people found the following review helpful. strong water resistant easy to "refold " detail of trails about what I ...
