**Cartographia : Salzburg Map by Cartographia (City Map) (English, French and German Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Salzburg Map by Cartographia (City Map) (English, French and German Edition):

1 of 1 people found the following review helpful. So soBy Mark FleischmannThis map makes good use of color coding and shows all the historic spots. But it is printed on flimsy paper, not laminated card stock, so it'll probably fall apart if you use it in the rain. Half of the side with the street listings is blank space. You could probably pick up something almost as good at the tourist office or your hotel for nothing.

Folded street and travel map in color. Scale 1:20,000. Legend includes pedestrian zones, railways, cable cars, churches, chapels, cloisters, palaces, castles, museums, theatres, youth hostels, parking, parkrides, camping sites, hospitals, golf courses, international airport. Includes inset map of city centre (1:8,000) and extensive index on reverse side of map.
