Nicholas A. Veronico, Betty S. Veronico : San Carlos (CA) (Images of America) before purchasing it in order to gage whether or not it would be worth my time, and all praised San Carlos (CA) (Images of America):

Interesting to read about the early businesses of San Carlos By Kent Price Interesting to see the early pictures of San Carlos and some of the buildings which are still here today. I particularly enjoyed the pictures and stories about early businesses such as the Black Mountain Water Company (p. 54), and Litton Industries (p. 60) and Varian (p. 61) which were both started in San Carlos. My only criticism is that

there is no index to look up particular items. The text is organized into an introduction and six chapters: (1) Early days, (2) City of good living, (3) Business and industry, (4) Arts and entertainment, (5) Planes, trains, automobiles, (6) San Carlos today. 1 of 1 people found the following review helpful. Perfect town for kids to grow up in! By John Jennings My parents moved to San Carlos in 1948 and I was born in 1949. They bought a new house on Lower Lupin Way for \$9,900. Three bedrooms, one bath. The neighborhood was awesome and I had many friends to play with. Our school, St. Charles, was one block away. The town of San Carlos was a perfect place to raise kids with great parks and a nice downtown. I loved the book and brought back many happy memories! 3 of 4 people found the following review helpful. Great local history By R. Brown I grew up in San Carlos, CA in the late 1940s thru the mid 1950s. This book is like a ViewMaster of my personal memories. I spent many Saturday afternoons at the theater on the corner watching those (for me at the time) amazing serial Westerns. Lots of great photos and good writing. Highly recommended.

Located in the heart of the San Francisco peninsula, San Carlos is known as the City of Good Living. Originally inhabited by the Costanoan Indians, the town was part of the Rancho de las Pulgas land grant during the Spanish mission days. Incorporated in 1925, San Carlos is considered the birthplace of today's Silicon Valley, having been home to such firms as Varian, Ampex, and Dalmo-Victor. The town has also boasted one of the military's largest dog-training facilities, the Morse Seed Company, and a number of great theaters. Community values are strong here, with popular events such as the Home Town Days Parade and Festival, Art and Wine Faire, Hot Harvest Nights, and the biannual Chickens Ball. Over the years, the city has worked to preserve its history and many of its early structures while also providing citizens with modern civic buildings and other amenities.

About the Author Nicholas A. Veronico is the author of *World War II Shipyards by the Bay and Moffett Field*, and coauthor Betty S. Veronico works as a commercial and residential property manager on the San Francisco peninsula. The couple has enjoyed life in San Carlos for more than 25 years. Drawing extensively from public and private collections throughout the city, they present here a stunning historical tour of this unique mid-peninsula city.
