If you want to go to Jerusalem and you need a tour book- this is your choice By Ivan Hecimovic Jerusalem is a city, which has strong and huge historical meaning. We do not need to take the Biblical meaning of the city (but if you like, you can) and what significance it holds to see that Jerusalem is truly something special. We do not even need to go there; simply by looking at photos and reading about it will make us

feel like we are already there. Since I like to travel a lot, before I go somewhere I have never been before, there are certain things that I like doing. One of them is getting a good tour book and to inform myself about the place. This book is truly great historical/tour book. As we read it, not only that we will discover many interesting things about the city, but we will also see that there is a lot of effort invested into it. Awesome work!1 of 1 people found the following review helpful. A wonderful books about jerusalemBy JaneEvery part of the world has its own history. There are so many places, towns, cities, villages, mountains and even forests with each of them taking their own part in our history.Jerusalem, as the capital of Israel is a place that has, if I can say it like this, the richest history in comparison to many other places. There are also so many books that write about Jerusalem too, which means that there certainly is something intriguing, inviting and even mystical about it. If you want to go to Jerusalem, then you need a good tour book. Sanctuary of the King City Royal: 13 tours of Jerusalem, written by Eyal Davidson is definitely a good tour book.3 of 3 people found the following review helpful.
